TROUT CREEK, UT

Utah and Montana Summer Adventure!

## The Destination

This summer, Explorations is offering a unique and exciting adventure through Montana and Utah. Our journey will begin with a visit to Lewis and Clark Caverns for a 2 hour tour of the world underground, during which we will experience the natural wonders of these caves and marvel at the colors they present. Having had our fill, we will drive south for our once in a life time **canoeing experience** on the magical and calm waters of the Green River. These waters meandering through the Stillwater and **Labyrinth Canyon** make up some of Utah's most beautiful scenery. We will paddle a 50 plus mile stretch of flat water that will follow the rolling desert hills of eastern Utah into the majestic depths of Labyrinth Canyon. We will travel through the ancient history of the landscape as we view the ruins and rock art sites of the Pueblo Indians. The Red cliffs, desert sunsets, and warm days await us on this memorable experience.

The journey will not end there, however. Once we have traveled through the cracks of the earth we will explore Moab and the beauty and excitement it has to offer. We will visit and hike to some of the great arches in the area and look over the Green River at Dead Horse Point. Our journey will only be limited by our imagination.

## The Crew

**Bruce Boudousuie**, a licensed therapist, has worked extensively with children, adolescents, and young adults for over twenty years in several different capacities. Having been raised in rural Louisiana, he currently resides with his wife Sherrie and two of his five children in northern Idaho, where he spends much of his free time engaging in hard physical work and participating in various outdoor recreational pursuits. Bruce's hobbies include building log furniture and cooking Cajun/Creole foods, but his true passion resides in using the outdoors as a catalyst to help and encourage young men and women to grow positively in their relationships with not only others, but themselves as well.

**Megan Campbell**, Breakwater Expeditions guide, originally hails from the East Coast and has spent the last 5 years facilitating expeditions and outdoor programming for youth and adults in a variety of environments in Utah, Colorado, Alaska and India. She has an ever-growing passion for creating space for change and growth within groups of all ages and from all walks of life. She believes in the natural healing powers of water, the elements, and the wilderness.

## Utah and Montana Summer Adventure!
